Response to Amendment

Status of the Claims

1. Acknowledgement is hereby made of receipt and entry of the amendment filed 10 April, 2003, wherein claims 7, 9, 10, and 11 were canceled without prejudice or disclaimer, claims 8, 12, and 13 amended, and new claims 16-21 submitted. Claims 1-6, 8, 12, 13, and 15-21 are pending in the instant application. Claims 1-6 and 15 stand withdrawn from further consideration by the examiner, pursuant to 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. Claims 8, 12, 13, and 16-21 are currently under examination.

35 U.S.C. § 103(a)

2. The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of

the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. § 103(c) and potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103(a).

4. The previous rejection of claims 7-13 under 35 U.S.C. § 103(a) as being unpatentable over McKenzie et al. (1994), is hereby withdrawn in response to applicants' amendment and arguments.

5. The previous rejection of claims 7-13 under 35 U.S.C. § 103(a) as being unpatentable over Prusiner et al. (1998), is hereby withdrawn in response to applicants' amendment and arguments.

New Grounds of Rejection

35 U.S.C. § 112, Second Paragraph

6. Claims 8, 12, 13, and 16-21 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 8 and 12, contain the phrases "for example" and "preferably at" (see step (ii)) which renders the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention or not, and the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See M.P.E.P. § 2173.05(d). Claim 8 is also vague and indefinite for reciting the phrase "if necessary" with reference to step (iii). It is not readily manifest if this step is to be performed and the conditions for deciding whether or not to employ said step are not clearly set forth. Applicants should clearly and unambiguously set forth the purification steps and required reagents as supported by the disclosure.
